

Mobile Doctors, a physician practice management company specializing in making house calls to geriatric and disabled patients, is seeking either a full-time or part-time Physician to provide at-home primary care. Our patients are primarily Medicare recipients who appreciate the care that we provide.

Each of our Physicians travels with a Certified Medical Assistant to assist in seeing the patients. Malpractice insurance is also provided.

Responsibilities:

- Be an understanding and compassionate physician while being able to listen to the patients and address their needs
- Complete all necessary documentation of the patients visit in accordance with Mobile Doctors protocol.
- Assess complex individuals using a range of assessment/diagnostic methods and research valid, reliable and, comprehensive patient and client-centered conclusions appropriate to needs, context and culture.
- Coordinate between nurses and specialists to ensure patients are receiving the proper care.

About Mobile Doctors:

Mobile Doctors is a rapidly growing, recession-resistant company of 130+ employees and physicians. We are headquartered in Chicago, with additional offices in Detroit, Phoenix, and Indianapolis, performing over 4000 house calls per month. We are also currently making plans to open two new offices within the United States in 2011. We take many of tests and procedures typically performed in the physician's office, and perform them directly in the patients' homes. These tests include phlebotomy, debridements, echocardiograms, carotid dopplers, arterial and venous dopplers, general ultrasounds, and x-rays.

We are accepting H1B/J1 visa applicants for this opening.

To be considered for this opportunity please forward your CV to Nick at nick@mobiledoctors.com or call 312-848-5319
