**POSITION: Physician,**

Internal Medicine

Family Practice

Dermatology

Pain Management

Psychiatry

J1 VISA waiver opportunities with North Bend Medical Center, Inc, a multispecialty clinic with 50 physicians and 10 midlevel providers and four locations.

The unique structure of our organization allows each physician to control their own office their own staff, working hours, patients, and practice direction. This provides a high degree of autonomy but still allows the benefits of the group practice such as shared call, in house specialist consultation. It allows you to be a doctor and do what you do best and protects you from a lot of the hassle of running a practice. NBMC provides all the ancillary services to run a practice i.e., accounting, billing, transcription, information systems, medical records, etc.

NBMC has a state-of-the-art in-house ambulatory day surgery unit. We have in-house lab, x-ray, CT scan, MRI, bone density, special procedures for treadmill, EKGs and Holter monitors. There is an audiologist on staff as well as a physical therapy department.

The Bay Area is located on the Pacific Coast, midway between San Francisco, California and Seattle, Washington. The Tri-cities of Coos Bay, North Bend, and Charleston are approximately 100 miles from Eugene, Oregon's second largest city. Population of the combined areas is around 35,000 with a patient referral base of 100,000. The world famous Bandon Dunes Golf courses are just twenty minute away.

As a resident of the Bay Area, you will enjoy a beautiful, family-oriented community with an outstanding school system. Residents also enjoy many outdoor activities including year-round water sports, golfing, camping, dune buggies and hiking.

We have a great community college, Southwestern Oregon Community College with classes offered for degree programs as well as special interests classes for the community. They also offer a state-of-the-art culinary school. The community is also well known for local theater groups, musical opportunities, gymnastics, martial arts, and the Boys and Girls Club. We have an airport that offers daily flights to Portland, OR and San Francisco, CA.
